

5-HORSE SLANT LOAD

GOOSENECK Living Quarters Shell

Here at 4-Star Trailers, we are experts in horse trailer design and manufacturing. We do what we do best: Design and build safe, durable, user-friendly trailers. When we receive your order for a living quarters trailers, we build the trailer shell to incorporate your desires and the interior conversion company's specifications. We leave the installation of the interior to those experts. Available in 2 to 5 horse slant load models, this 4-Horse began as one of a group of trailers designed specifically to serve as a starting point for creating your next living quarters trailer.

Heretofore, customers configuring LQ trailers were required to start with a base model requiring extensive alteration. We've created a more convenient and economical way for our customers to realize their dream trailer. We bundled options common to most LQ trailers and applied them to our standard models of slant load trailers to create new base models from which to build on; at significant savings to you.

All 4-Star Trailers Come With Our

8 YEAR WARRANTY
